Introduction

This document contains a summary of changes and installation instructions for Statutory Deductions Spreadsheet Version 124 for the United States.

This spreadsheet is only compatible with the following version of Anthology Payroll:

• Anthology Payroll for Microsoft Dynamics 365 Finance

This spreadsheet updates US statutory deductions in Anthology Payroll according to the most recent legislation by governing authorities. It is intended for companies that process US statutory deductions in the specified jurisdictions.

The current baseline version for the Payroll Statutory Deduction Spreadsheet is **Version 112**. If you have installed Version 112, you can install any subsequent version.

For more details about the objects and statutory deductions updated by this spreadsheet, contact our Client Support: https://support.anthology.com

It is recommended that this spreadsheet is installed in a test environment and validated against your test data before installing it in production.

This document is divided into the following sections:

- Summary of Changes
- Installation

Summary of Changes

The following changes are made since the previous version.

US Federal Changes

This section describes federal changes for the United States. This version contains changes to the following federal taxes:

State	Changes
Federal	Income tax brackets are updated.
Income Tax	Alien adjustment amounts for income tax are updated.

State Changes

This version contains the following state changes:

State	Changes
Alaska	Unemployment taxable wage base is increased from \$49,700 to \$51,700.
California	Standard deduction, allowance and exemption values and tax brackets are changed.
Delaware	New payroll objects are added for Delaware Paid Family Leave. This change requires post-installation instructions.
Hawaii	Disability insurance maximum weekly deduction is increased from \$6.87 to \$7.21.
	Unemployment taxable wage base is increased from \$59,100 to \$62,000.
Idaho	Unemployment taxable wage base is increased from \$53,500 to \$55,300.
Illinois	Unemployment taxable wage base is increased from \$13,590 to \$13,916.
Kentucky	State Tax standard deduction is increased from \$3,160 to \$3,270.
Michigan	State Tax personal exemption amount is increased from \$5,600 to \$5,800. Unemployment taxable wage base is decreased from \$9,500 to \$9,000.
Minnesota	Tax brackets are changed.
	Withholding allowance is increased from \$5,050 to \$5,200.
Missouri	Tax brackets and rates are updated.
	Supplemental tax rate decreased from 4.8% to 4.7%.

State	Changes
New Mexico	Tax brackets and rates are updated.
North Dakota	Unemployment taxable wage base is increased from \$43,800 to \$45,100.
South Carolina	Tax brackets, rates, standard deduction amount and personal allowances are changed.

Installation

Installation procedures are divided into the following sections:

- Time to install.
- Prerequisites
- Installation instructions
- Post-installation

Time to Installation

The time required for Anthology Payroll to complete the import process varies depending on the type of spreadsheet:

• This is an *update* version. The import process time will be minimal because you are only importing records that have been updated since the last baseline version.

These other factors can also impact the time required for installation:

- The amount of pre-existing, custom statutory deduction records in your system. Anthology Payroll must check each of these against the imported records for conflicts.
- The amount of statutory deduction changes included in the current version.

Prerequisites

The prerequisites for installing Version 124 for the United States are:

- Microsoft Excel installed on the Microsoft Dynamics AX client from which the statutory deduction spreadsheet is updated.
- Anthology Payroll version required.
- Latest statutory deduction spreadsheet condition.

Anthology Payroll Version Required

This version of the spreadsheet is intended for Anthology Payroll US localization version 10.0. Other versions are not compatible with this spreadsheet.

To verify your version, click **Anthology Payroll** > **Setup** > **Parameters**. The version number appears in the **General definitions** form title.

For the latest software updates of Anthology Payroll, please contact Anthology Support: <u>https://support.anthology.com</u>

Latest Statutory Deduction Spreadsheet Condition

Depending on the last Statutory Deductions Spreadsheet that you have imported into your environment, you may need to import a prerequisite spreadsheet before importing this one.

Version 124 for the United States is an update version of the Anthology Payroll Statutory Deductions Spreadsheet. This version is meant to be installed on top of the current baseline version, which is Version 112. Update versions released after each baseline are cumulative and are independent of each other. If you have installed Version 112, you can install any subsequent update version.

If there are any spreadsheet versions between Version 112 and Version 124 that you have not installed, please check for any pre- and post-installation instructions applicable to these missed versions that may apply to statutory deductions in jurisdictions where your company operates. For an overview of these steps since the last baseline, see Pre-Installation Procedures on page 7 and Post-Installation Procedures on page 10.

To determine your current spreadsheet version, click **Anthology Payroll > System update utilities > Other> Import statutory deduction updates** to open the Import statutory deduction updates pane. Note the value of the Latest version installed.

For other versions of the Statutory Deductions Spreadsheet, please contact our Client Support: <u>https://support.anthology.com</u>

Note: it is recommended that you install and test the spreadsheet in a test environment before installing it in production.

Pre-Installation Procedures

Pre-installation procedures may be required to prepare Anthology Payroll for the installation of the spreadsheet. If you follow any of these procedures, ensure to perform the procedures in the same test environment as your initial installation, and to validate correct functionality before performing the same steps in your production environment.

The following table describes the pre-installation procedures applicable to each version since the last baseline version (Version 112).

Note: If you have previously skipped the installation of any spreadsheet versions listed below and they contain pre-installation instructions, then you must contact Client Support for the release notes of those past versions:

https://support.anthology.com

Spreadsheet Version	Pre-installation procedures
112	None
113	None

118	None
119	None
120	None
121	None
122	None
123	None
124	None

Installation Instructions

You must complete the following steps in the proper sequence to install the spreadsheet. It is recommended that you first install and test the spreadsheet in a test environment before installing it in your production environment. It is also recommended to install the spreadsheet at the start of a new pay period before any transactions are made.

To install the Statutory Deductions Spreadsheet:

- 1. Log in to the Microsoft Dynamics 365 Finance. Ensure you are in the company (legal entity) that you want to update.
- 2. Click Anthology Payroll > System update utilities > Other > Import statutory deduction updates to open the Statutory deduction data import pane.
- 3. The next step depends on the latest version of the Statutory Deductions Spreadsheet that you have installed:
 - If the import pane shows are no version numbers or the latest version number is lower than Version 112, you must install the latest baseline version before proceeding to install this version. The latest baseline version is Version 112. After installing the baseline, proceed with installing Version 121 for the United States. For information on how to obtain the baseline version, please see Latest Statutory Deductions Spreadsheet Version on page 6.
 - If the latest version number is Version 112 or higher, then proceed to the next step.
- 4. In the pane, browse to your statutory deduction spreadsheet and select it.
- 5. Click OK to start the import.
- 6. When the import process is complete, an alert message appears. If there are errors reported, navigate to Anthology Payroll > Inquiries > Run controls to view the error messages. Take the recommended actions (see Error Messages and Conditions on page 8) and run the import process again.
- 7. You have completed the spreadsheet installation process. Please check for any post-installation notes or instructions that may apply to you. Remember to test the spreadsheet in a test environment before repeating these instructions in your production environment.

Error Messages and Conditions

The following table details some common error messages or conditions that you may encounter when importing a Statutory Deductions Spreadsheet and the recommendations on fixing the error:

Error Condition	Problem and Resolution
No statutory deduction updates are imported. The run controls do not display any messages about importing spreadsheet tables, only that the process has initialized. For reference, highlighted lines in the image below do not appear in the run controls.	A synchronization error has occurred on the cloud-based environment resulting in the import process hanging. The Statutory Deductions Spreadsheet import process must be restarted. However, it is possible that a partial import has occurred and some records have been imported. These records must be deleted before the import process can be restarted. If this scenario occurs, please contact our Client Support for assistance (https://support.anthology.com).
Table <tablename> contains field 'Code' with key value <keyvalue> which is a system record; it must be renamed or removed prior to import.</keyvalue></tablename>	You have set up a record in the <tablename> that matches a versioned record in the spreadsheet. If your custom record serves a specific purpose, then it must be renamed. If you want to replace your record with the one in the spreadsheet, then simply delete your custom record. After taking one of these steps, run the import process again.</tablename>

Post-Installation Procedures

After you have installed the spreadsheet, post-installation procedures are sometimes required to properly configure new data elements. If you follow any of these procedures, ensure to perform the procedures in the same test environment as your initial installation, and to validate correct functionality before installation in your production environment.

The following table describes the post-installation procedures applicable to each version since the last baseline version (Version 112).

Note: If you have previously skipped the installation of any spreadsheet versions listed below and they contain post-installation instructions, contact our Client Support for the release notes of those past versions: <u>https://support.anthology.com</u>

Spreadsheet Version	Post-installation procedures	
112	None	
113	Revert OASDI Taxable Income Calculation Method	
114	Set up Colorado Family and Medical Leave Insurance	
	Set up Oregon Paid Leave	
	Update Washington Family Leave Insurance Employer Rate

	Set up DR 0004 Colorado Employee Withholding Certificate	
123	Set up Maine Paid Medical and Family Leave	
	Update Washington Family Leave Insurance Employer Rate	
124	Set up Delaware Paid Medical and Family Leave	

Set up Delaware Paid Medical and Family Leave

New payroll objects have been added for paid family and medical leave (Family and Medical Leave Act, FMLA) insurance in Delaware starting January 1, 2025. These objects require some additional configuration after importing the spreadsheet.

Please note that even after configuration is complete, DE FMLA will not be deducted from workers in Delaware until January 1, 2025.

If you do not have workers in DE, you may skip this procedure.

To add accumulator eligibility and values for the new accumulators:

- 1. Change your current context date to *January 1, 2025,* for ease of setting up the following objects.
- 2. In the navigation pane, click **Setup** > **Tables** > **Accumulators** > **Accumulator values** to open the **Accumulator values** form.
- 3. Create new accumulator values for the following accumulators and set their values accordingly:

Accumulator	Earnings	Benefit/ Deductions
DE FMLA Inc	Same values as <i>DE SUI Inc</i> accumulator	
DE FMLA Inc YTD	Same values as <i>DE SUI Inc</i> <i>YTD</i> accumulator	
DE FMLA FBen	Same values as <i>DE SUI</i> Fringe Ben accumulator	
DE FMLA FBen YTD	Same values as <i>DE SUI</i> Fringe Ben accumulator	
DE FMLA YTD		DE FMLA

- 4. Save and close the Accumulator values form.
- 5. In the navigation pane, click **Setup** > **Tables** > **Eligibilities** > **Accumulators** to open the **Accumulator eligibility** form.

- AccumulatorEligibilityDE FMLA IncSame eligibility as DE SUI Inc accumulatorDE FMLA Inc YTDSame eligibility as DE SUI Inc YTD accumulatorDE FMLA FBenSame eligibility as DE SUI Fringe Ben accumulatorDE FMLA FBen YTDSame eligibility as DE SUI Fringe Ben accumulatorDE FMLA FBen YTDBlank row (all workers eligible)
- 6. Create new accumulator eligibility records for the following accumulators:

7. Save and close the **Accumulator eligibility** form.

To indicate that you are a small employer in Delaware and eligible for a reduced employer rate of contribution to family and medical leave insurance:

- 1. In the navigation pane, click **Setup** > **Tables** > **Calculations** > **Calculations** to open the **Calculations** form.
- 2. On the **Overview** tab, locate and select the *DE FMLA small empr* **Calculation** code.
- 3. On the Rule tab, click Edit to open the Calculation setup form.
- 4. Change the calculation string to 0 (zero).
- 5. Click Validate and Save to save your changes and return to the Calculations form.
- 6. Save your changes and close the form.

If you as an employer wish to contribute more than the default 50% of family and medical leave insurance contribution to workers in Delaware, you may change this fraction. To change your default employer contribution percentage:

- 1. In the navigation pane, click Setup > Tables > Calculations > Calculations to open the Calculations form.
- 2. On the Overview tab, locate and select the DE FMLA ER Rate Calculation code.
- 3. On the Rule tab, click Edit to open the Calculation setup form.
- 4. Change the calculation string to a percentage value representing the portion of insurance contribution your organization is paying on behalf of your workers. For example, to indicate 60%, set the value to 0.6.
- 5. Click Validate and Save to save your changes and return to the Calculations form.
- 6. Save your changes and close the form.

To set up the DE FMLA benefit/deduction:

- 1. In the navigation pane, click Setup > Tables > Benefit/deductions > Benefit/deductions to open the Benefit/deductions form.
- 2. On the Overview tab, locate and select the DE FMLA Benefit/deduction.
- On the General tab, enter accounting information for the deduction as needed. Set the DR employer ledger account and CR employer ledger account to either the same clearing account or a pair of clearing accounts that offset each other.
- 4. Set the calculation and depletion sequence numbers to values such that this deduction calculates and depletes similarly to other DE state deductions.
- 5. Set the **Use by worker** field to Yes and the **User by worker position** field to *No* to indicate that this deduction is only intended to be assigned at the worker level.
- 6. Save your changes and close the form.
- 7. In the navigation pane, click Setup > Tables > Benefit/deductions > Benefit/deduction groups to open the Benefit/deduction groups form.
- 8. Add the *DE FMLA* benefit/deduction to groups as required for your implementation. This deduction is applicable to all DE workers and deducted every pay period. Some suggested benefit/deduction groups are:
 - All benefit/deductions
 - Payment all types
 - Sched every pay pd
- 9. Save your changes and close the form.
- 10. In the navigation pane, click Setup > Tables > Benefit/deductions > Benefit/deduction rule group calculations to open the Benefit/deduction rule group calculations form.

- 11. On the **Fast entry** tab, select all your **Benefit/deduction rule groups** that deduct family and medical leave insurance for DE. Select the *DE FMLA* benefit/deduction in the **Benefit deductions** pane.
- 12. Select the DE FMLA EE Cont calculation in the Worker calculation field.
- 13. Select the DE FMLA ER Cont calculation in the Employer calculation field.
- 14. Set an **Active date** of *01/1/2025* (January 1, 2025). Click **Insert** to create the rule group calculation for each selected benefit/deduction rule group.
- 15. Save your changes and close the form.
- 16. Reset your context date back to the current date if you changed it earlier.

After creating the benefit/deduction rule group calculation record(s), you may assign the *DE FMLA* benefit/deduction for all affected workers starting January 1, 2025. Please refer to your end-user manual or implementer's guide for the relevant documentation.

To insert the deduction for multiple workers at a time:

- In the navigation pane, click Periodic > Other > Mass worker changes > Mass benefit/deductions insert to open the Worker benefit/deductions form with the Fast entry tab expanded.
- 2. On the Fast entry tab, select the DE FMLA Benefit deduction.
- 3. Select from **Pay groups**, **Departments**, **Occupations**, etc. to filter the workers that you wish to assign the deduction to. Click **Build workers list** to populate the list of workers according to your selection.
- 4. In the workers list, select one or more workers to assign the deduction to.
- 5. Click Insert to add the benefit/deduction to all selected workers.
- 6. Save and close the form.

The *DE FMLA* benefit/deduction must also be associated with payment types. Payment types are specific to your implementation. If you added the *DE FMLA* benefit/deduction to groups that are already configured for payment types (e.g. *Payment all types*), you can skip this procedure. It is highly recommended to add the benefit/deduction to a benefit/deduction group associated with payment types instead of associating it individually. To associate the *DE FMLA* benefit/deduction to payment types individually:

- 1. In the navigation pane, click Setup > Tables > Payments > Payment type benefit deduction selections to open the Payment type benefit deduction selections form.
- 2. On the **Fast entry** tab, select the *DE FMLA* **Benefit deduction** and the following suggested **Payment types**:
 - regular payments
 - manual/off-cycle payments
 - bonus/supplemental payments
 - adjustment/correction payments
 - gross up payments
 - advances
- 3. Click Insert to add the DE FMLA benefit/deduction to all selected Payment types.
- 4. Save and close the form.

The *DE FMLA* benefit/deduction must also be scheduled to deduct every pay period. Schedules are specific to your implementation. If you added the *DE FMLA* benefit/deduction to groups that are already scheduled to deduct every pay period (e.g: *Sched every pay pd*), you can skip this procedure. It is highly recommended to add the benefit/deduction to a benefit/deduction group that is scheduled every pay period instead of scheduling it individually. To schedule the *ME FMLA* benefit/deduction individually:

- 1. In the navigation pane, click Setup > Tables > Schedules > Pay period benefit/deductions to open the Pay period benefit/deduction schedules form.
- 2. On the Fast entry tab, select the DE FMLA Benefit deduction and Pay group as desired.
- 3. Select all **Pay period end dates**.
- 4. Click **Insert** to schedule the *DE FMLA* benefit/deduction for all pay periods.

Note: this procedure must be repeated as new date periods are added.

5. Save and close the form.

Family and Medical Leave Insurance must be reported as a Box 14 item on your W-2. To set up W-2 export format fields for the purpose of reporting *DE FMLA*:

- 1. In the navigation pane, click **Setup** > **Tables** > **Payroll** > **Forms** > **Formats** to open the **Formats** form.
- 2. On the **Overview** tab, select your *W*-2 **Export format**.
- 3. Click Setup > Format fields to open the Format fields form.
- 4. Create the following export format fields. Enter the **Position filter**, **Export format field** name, **Field source type**, and **Field source** as listed in the table below:

Position Filter	Export Format Field	Field Source Type	Field Source
DE	Box14 Code DE FMLA	Fixed	DE FMLA
DE	Box14 Value DE FMLA	Accumulator	DE FMLA YTD
DE	Box14 Code DE FMLAInc	Fixed	DE FMLA Inc
DE	Box14 Value DE FMLAInc	Accumulator	DE FMLA Inc YTD

- 5. Select Yes for Display in report? and Yes for Exclude if zero?
- 6. Save your changes and close the form.

If you need assistance with configuring the above, please contact Anthology Support:

https://support.anthology.com
